A place where we can meet as a community of like minded creatives, gain insights from industry professionals, have a jolly good time and most of all,

BE INSPIRED.

THE ONLY AND ULTIMATE EVENT FOR
NETWORKING OPPORTUNITIES,
INFORMED BUSINESS DEVELOPMENT,
EMPOWERMENT AND INSPIRATION
THAT THE UK
WEDDING INDUSTRY HAS SEEN.

THE DETAILS

The Chosen Wedding Collective is an online resource designed to help both established and newly emerging professionals grow their creative businesses.

The CWC offers unique, fresh and easy to follow advice in the form of newsletters, blog posts, downloads and workshops as well as one on one consultancy coaching and business mentoring. We also have a private focus group where the CWC community can network, learn from each other and gain access to direct business coaching, exercises and advice.

‘The Hub’ is the only event of its type in the industry that offers an exciting, fresh and beautifully styled new way of learning and networking. A priceless resource in our information overload and time constrained world. Introducing industry leaders, experts and entrepreneurs sharing inside secrets to truly getting ahead, this event is designed to set every single attendee in great stead for true and actual inspired movement forward.

Set up with the sole aim of helping people push, create or grow their businesses and their lifestyles further, our goal is to provide inspiration and motivation in abundance, helping you get on the right and direct path to making your creative business work for you, and not the other way around.

BEHIND THE CWC

Chosen Wedding Collective was founded in 2014 by Kiki-Sunshine Boonwaat, Founder and Director of Chosen Wedding - who have been running wedding events since 2012.

Chosen Wedding was founded with the aim to update the old format of wedding fairs and present the public with accessible creative contemporary events and options. Chosen makes a conscious effort to work with and encourage emerging designer makers as well as established businesses in the industry and is dedicated to helping raise creative and wedding industry standards throughout their work with both the fairs and with the Collective and focus community.

Over the past 7 years running her own business, Kiki has worked with 3,000+ creatives as well as consulting with larger organisations, and has a background Fine Art Photography, psychology and business development. But the one thing she's most proud of are the connection exchanges that take place at and following Chosen events and is fully dedicated to building that further, growing the Chosen family through informative events, an inspirational resource, an invaluable and unrivalled online community and supportive empowering exchanges.
